# Your very own KPPD

King Price  
policy document

## **Congratulations**

### **You're now under the protection of the king**

Since you've already decided to join the King Price royal family, we realise that we don't have to tell you what a wise decision you've made. Please keep that in mind though as you go over the information that follows in your KPPD (King Price policy document).

We're not going to sugar coat the reality... It's long. In fact, it consists of more than 110 pages. And it's comprehensive. As you read it, you'll find words like 'substantiate' and 'modification'. Not to mention 'comprehensive'. We sympathise. We really do. After all, who actually wants to read a long and probably boring policy document?

Well, to be honest, maybe you do. Because this is your long and probably boring policy document. It explains the cover you enjoy, based on the information you've given us, and it conveys the finer details of your policy and all your responsibilities in (we hope) the clearest possible way.

So, even though we hate to nag, please read your KPPD, check all the details on your schedule and make sure that you fully understand the policy wording. If anything is unclear at all, or if you need to update your information, don't hesitate to give us a call on 0860 50 50 50.

It's in your best interest to do so.  
Remember, incorrect details = incorrect cover.

Royal regards,

King Price

# Things you need to know

## Your King Price policy... It's all about you

Your contract with us (King Price) consists of this policy wording, your policy schedule, all written correspondence and verbal agreements. You need to ensure that all the information is correct. Incorrect information may influence the validity of the contract and/or the outcome of your claim.

If anything (at all) is not correct, please contact us immediately to have it updated. Remember, incorrect details = incorrect cover.

**KPPD**

**+ Schedule**

**+ Written correspondence**

**+ Recorded calls**

} = *Your policy*

If we've sent written correspondence or documents to you at the postal or email addresses that are noted on your policy schedule, we'll assume that you've received and read our communication.

## When it starts

The commencement date (start date) of your cover is the date on which we agreed that the policy should start. The first premium must also be paid by this date.

## Monthly premium

Your monthly premium is the amount that you need to pay in advance every month, by debit order, to enjoy the insurance cover you chose. We'll always collect your premium in advance based on calendar months... So, if your recurring debit order date is on the 15th of every month then we'll always deduct your premium for the following full calendar month on the 15th.

## How and when to pay

Your monthly premium must be paid on the agreed payment date, and in the manner agreed upon.

\* **Please note: You always pay for insurance in advance. If your debit order date falls on a Sunday or a South African public holiday, collection will be on the next ordinary business day.**

## And if you don't pay

Let's say your debit order is returned by your bank, and your insurance premium due to us isn't paid as a result of that:

- You'll have a grace period of 15 days from the date of payment that has been agreed between you and us (as noted on your policy schedule), to correct the situation and pay us. If your premium is paid on a monthly basis, the 15 day grace period will commence from the second month that you're insured with us.
- If the premium remains unpaid, you'll unfortunately not be covered for the full period that would have been covered by this unpaid premium. This break in cover may also result in your policy being re-rated.
- If you want to claim for an incident that happens during this 15 day grace period, the approval of such a claim will only be considered once we have received your premium payment in full, and no later than the 15th day of the grace period.

**Please note: If we don't receive the payment for 2 months in a row, we might cancel your entire policy and you'll no longer enjoy cover.**

**Remember, no premium paid = no cover.**

So, to ensure continuous, peace of mind cover, please make sure that there's enough money in your bank account every month, on the date that you asked us to deduct your premium.

## What you need to pay, if you need to claim

If something happens for which you need to claim, you'll be expected to pay the basic excess amount, as noted on your policy schedule.

You may also be expected to pay any of the additional excess amounts (refer to your policy schedule).

## If you want to leave us

Let's hope that you never need to make use of this section, but just in case:

- You may cancel your policy at any time and with immediate effect. If you do, we'll refund the relevant portion of your premium, less any administrative cost, provided that no valid claim has been submitted for that period.
- We may also cancel your policy by giving you 30 days' notice. We would do so verbally, email or post to your last known address.
- Your policy will automatically cancel when your monthly premiums are not paid for 2 consecutive months, either on the payment dates or within the grace periods in those months. Your policy and cover will end on the final day of the period for which you last paid your premium.

## Need a change

You may make changes to your policy at any time, by simply calling us. Any change you make will be effective from the time and date agreed to. An updated policy schedule will then be sent to you. In such a case, please check that the changes were made just as you had requested.

Remember, incorrect details = incorrect cover.

King Price may also make changes to your policy, as and when we deem it necessary to do so. When we do, we'll give you 30 days' notice.

## Sharing of info

We respect the confidentiality of your information and will never misuse it. For the sake of sound insurance practices, however, it's sometimes expected of insurers to share some information relating to claims, insurance and the financial history of their clients.

**\* Please note: If the information that you provide relates to anyone other than you, you must get their permission to give it to us and for us to use it. You may apply for a copy of your information (we may charge a small fee) and correct it if we've got it wrong.**

## Need to claim

We have the choice to settle your claim in any of the following ways:

- Paying out cash to you.
- Repairing the damage at a repairer of our choice.
- Replacing the item at a supplier of our choice.
- Any combination of the above.

**\* Please note:**

- **If any item that's claimed for is financed, we'll pay the finance institution before paying over the balance of the insured amount to you.**
- **If we replace any insured item, then the damaged or stolen item automatically becomes our property and we may dispose of it in any manner we see fit.**

## Jurisdiction

This policy is governed by the laws of SA, and the courts of SA have jurisdiction.

**\* Please note: Your personal risk profile determines your premium and all other variables relating to the cover that we advertise and offer. It's your responsibility to keep your profile 100% correct and up to date.**

## Things that are never covered by King Price

(Or by any other short term insurance company we've ever met)

This policy doesn't cover any loss, damage, liability or injury directly or indirectly arising from any of the following:

### War, military uprising, terrorism or any such attempted act

- War, an act of a foreign enemy, a warlike operation (whether war be declared or not) or civil war.
- Military uprising or usurped power, martial law, rebellion or revolution that determines the proclamation or maintenance of martial law.
- Any act of terrorism including the use, or threat of use, of force or violence by any person or group of persons (whether acting alone or on behalf of another, or harmful to human life or not) with the intention of influencing any government or inspiring fear in the public.
- Looting and theft arising from the above incidents.

\* **Please note: If your claim is rejected because we say that 1 or more of these exclusions applies, the onus is on you to prove the contrary.**

### Civil commotion, riot and strike

- Civil commotion, any labour action or strike, public disorder or any act calculated to bring about any of these.
- Any act (whether on behalf of any organisation, body, person or group of persons) calculated to overthrow or influence any state, government, or provincial, local or tribal authority with force, fear, terrorism, violence or protest against them.
- Any act that's calculated to bring about loss or damage in order to further any political aim, or to bring about any social, economic, religious, personal, ethnic or ideological change.
- The act of any lawful authority in any other way dealing with any occurrence referred to in any of the clauses above.

\* **Please note: Loss and damage arising from such incidents, as well as consequential looting and theft, may be covered by Sasria. Refer to the Sasria policy doc on [kingprice.co.za](http://kingprice.co.za) for further information.**

### Confiscated property

Property that has been legally confiscated.

## Sanction limitation

You're not covered, and we won't make any payment or provide any benefit, that would expose us to any sanction, prohibition or restriction under any United Nations resolutions, or the trade or economic sanctions, laws or regulations of the European Union, United Kingdom or United States of America.

## Pollution or contamination

Pollution, contamination or seepage, radioactive or nuclear material.

## Computer losses

The incapacity or failure of any computer (including data processing equipment, microchip, integrated circuit or similar device in a computer or non-computer equipment) to capture, save, retain or access any data, code or information as a result of:

- Any program error, incorrect entry or inadvertent cancellation of data or programs.
- Any virus, corruption, malware, Trojan horse, time or logic bomb, worm or any other destructive or disruptive code, media or program.

**Please note: You're also not covered for unlicensed software, or electronic programs or data.**

## Wear and tear or breakdown

This includes:

- Any cause that was not sudden and unforeseen.
- Gradual deterioration, including rising damp, wear and tear, rust, mildew or fading.
- A rise in the underground water table or pressure caused by it.
- Defective lubrication, or lack of oil or coolant.
- Mechanical, electrical, or electronic breakdown, defect or failure.
- Damage to consumable parts, or parts with a limited lifespan.
- Damage recoverable under any maintenance or lease agreement.
- Servicing, maintenance, cleaning, repairing, restoring, dyeing, bleaching or alteration.

## More specifically covered elsewhere

Your insured possessions which are more specifically covered elsewhere.

## Insects and pests

Damage caused by insects or pests, such as moths, rats, etc.

## Contracts

This includes:

- Breach of contract.
- Liability arising from a contract or agreement.

## Selling your possessions

When selling your possessions, you need to have prior confirmation from your bank that a valid and legal payment for the sale has been made before giving the property to the other person.

## Pawned items

Any pawned items, whether you pawned them or you're holding them on someone else's behalf.

## Consequential loss

Any consequential loss or damage which isn't directly caused by an insured risk. Some consequential losses can be covered and are specifically noted.

## Illegal and criminal activities

The use of the insured property for, or in connection with, the commission of any offence. This includes any incident relating to obtaining, using or soliciting narcotics (drugs).

## Pre-existing damage

There's no cover for any damage which existed before the insured incident, or before your insurance cover started with us.

## Sets and pairs

There's no cover for remaining parts or items that are part of any set or pair. So, if you claim for a damaged or stolen item that forms part of a set or pair, we'll either replace the individual item or settle the cash equivalent. We won't replace the entire set or pair.

# The stuff you need to do...

## Yip, you

### Ask the king

- Me What do you mean I have 'stuff to do' as a King Price policyholder? What stuff? You mean there are other things I have to do besides paying my monthly premium?
- KP King Price doesn't ask for much. We give you super cheap premiums and we automatically decrease them every month, as the value of your car depreciates.
- Me I know, it's an awesome deal! That's why I joined you!
- KP But the king also needs your help. We're counting on you. We'd hate to see your claim being rejected or the validity of cover being questioned because you didn't do what was needed on your part. So please...

### Pay us

Pay your premiums, on time, every month.

### Be honest

Always provide us with true and complete information. This also applies when anyone else acts on your behalf.

### Tell us

Inform us immediately of any changes to your circumstances that may influence whether we give you cover or continue to give you cover, or that could affect the conditions of cover or the premium that we charge you.

This includes any changes/incorrect details of any of your information, such as:

- Personal information: All of your personal details on the policy schedule are very important.
- Address: If your address changes for any reason, or if you park any insured vehicle at a different address for an extended period of time.
- Car and motorbike details: Any changes to the regular or named drivers, what you use your car or motorbike for, or where you park.

- Financial status: Anything we need to know about your financial position or that of any person covered under your policy. This specifically relates to issues like defaults, civil judgments, debt review, sequestrations, administration orders and liquidations of companies in which you have an interest.
- Potential risk: Let us know if your home will be unoccupied for any period longer than 45 days in a row.
- Other factors that may influence cover: We need to know when your home is let or sublet.
- Changes to the insured structure: Notify us of any alterations, additions or improvements that are made to your home.
- Criminal convictions: Against you or anyone covered by this policy.
- Accidents, incidents, claims or losses: That you suffer, after entering into a contract with King Price, whether these occur while you are insured with King Price, or another insurer, or whether you're uninsured at the time of the occurrence.
- Cancellation by another insurer: If another insurer has ever cancelled your cover, refused to renew your policy or advised you to seek alternative cover.

## **Look after your stuff**

Take reasonable, necessary steps to prevent or minimise loss, damage, injury or liability.

This includes:

- Obeying all legal requirements and manufacturers' recommendations.
- Maintaining the property, or items, in a fit and sound condition.

## **Keep your promises**

You need to give us:

- All information and documentation we ask of you, within the timeframe we set.
- True and complete information to us and the authorities. We act on the information you provide, therefore any information which is misleading, incorrect or false will prejudice the validity of your claim.

## **Keep your receipts safe**

You need to please:

- Prove ownership and the value of any item that you're claiming for.
- Make damaged items, which you're claiming for available for inspection, in order for us to verify the full extent and nature of the damage.

## **Make double bubble sure**

That all those who are living with you, or who are driving your car, or riding your motorbike, are indeed adhering to the terms and conditions of this policy.

# How to claim

## But let's hope you won't ever need to

**First and foremost, if you have an accident and you're covered by the king's comprehensive car or motorbike insurance...**

It's vital that you phone the King Price client care line (as soon as possible after the accident, before the car or motorbike is towed and when you're medically able to do so). Client care will arrange and authorise the towing of your car or motorbike.

### **Please note:**

- **You'll be personally responsible for the cost of the towing and storage if you don't comply with this. So, save the number on your phone now: 0860 50 50 50.**
- **Claims for bling cellphones must be registered via our app or website. Please refer to page 98 for more info on how to claim for a bling cellphone.**

## What to do in the event of a claim

### Tell us

The sooner you notify us, the quicker we can help you. Please take note of these important time limits:

- Report your claim or any incident that may lead to a claim, to us as soon as possible, but no later than 30 days, after any incident.
- This includes incidents for which you don't want to claim right away, but which may result in a claim in the future.
- Give us all documentation relating to your claim, as soon as possible. You can drop us an email at [claims@kingprice.co.za](mailto:claims@kingprice.co.za)

### Tell the police

- If you've been involved in an accident, you must report it to the police within 24 hours, even if there's no damage to your car or motorbike.
- If you've suffered a theft, hi-jacking, burglary or any crime-related incident, you must tell the police immediately after becoming aware of the incident.

## **Do the paperwork**

You need to provide us with a copy of:

- The police report.
- The police case number.
- Your statement to the police.
- Details of the police station and attending officer.
- A detailed list of all items lost, stolen or damaged.
- Any other relevant documentation needed to validate your claim.
- Details of any third party involved in the incident, if applicable.

## **Check and let us know**

If there's any other insurance policy which covers the same insured incident.

## **Keep us updated**

You need to tell us immediately if:

- You become aware of any possible prosecution, legal proceedings or claim that could be lodged against you, as a result of the incident, for which you have already claimed.
- Any other relevant or new information which has, in the meantime, come to light regarding the insured incident that you have claimed for, even if this information only surfaces after you've submitted the claim, or if the claim has already been finalised.

## **Wait for us to help you**

Never permit any replacement or repairs that haven't yet been authorised by us. Get our written approval first before disposing of any damaged property, or repairing or replacing any losses that you may have suffered. Failure to do so may lead to your claim being rejected.

## **Help us help you**

You need to act on, or take note of, the following:

- Pay all the excess amounts, plus any additional excess amounts, that you have to contribute for each claim, if relevant and as noted on your policy schedule.
- The excess amount that you have to pay will consist of:
  - The basic excess amount that applies to each specific insured incident/item.
  - Plus any additional excess amounts that may be applicable for some of the insured incidents or circumstances, the details for both of which are noted on your policy schedule

- Excess payments are also payable in circumstances where you didn't cause the accident.
- Assisting us, where possible, in any recovery action against any third party responsible for the loss or damage. We'll reimburse you for any reasonable extra expenses that were incurred for this purpose.
- Complying with our instructions and requests, as and when we need your assistance.

## **Get it done**

Any repairs or replacements must be completed within 3 months of your claim being settled.

## **Let us take care of the difficult part**

Never admit guilt or offer a settlement to any other party involved in an incident in which you're involved. We won't be bound by any such admission or offer that you make.

So, no matter what, never, ever, ever admit guilt or offer a 'settlement' to any other party involved in an incident, in which you're involved. This may prejudice any attempt to recover any money spent on repairing your car or motorbike.

Just let us take care of everything. It's our job.

## Ask the king

Me When do I admit guilt in an accident that I'm involved in?

KP Never.

Me But suppose it's totally my fault, the street's full of people watching and someone's recording the entire incident on their phone. Do I admit guilt then?

KP No.

Me Suppose I have an accident in front of a police roadblock, and 2 dozen traffic cops saw the whole thing. Do I admit guilt then?

KP No.

Me And in addition to the 2 dozen traffic cops, there's also a busload of judges and the Minister of Transport, all on their way to a 2-day Indaba on Road Safety. Surely I admit guilt then?

KP No. We need to be extremely clear about this. We know that you're a nice person and that you want to do the right thing. But sometimes we don't think clearly after an accident, no matter whose fault it is. So no matter what, never, ever admit guilt or offer a 'settlement' to any other party involved in an incident in which you're involved. This may prejudice any attempt to recover any money spent on repairing your car or motorbike. We'll therefore not be bound by any admission or offer that you make to any person in relation to any incident. Let us take care of this for you. It's after all what you're paying us for... So 1 more time: When do you admit guilt if you're involved in an accident?

Me I guess never.

## After your claim has been settled

You need to let us know if you recover money or receive any other form of compensation from a third party after claiming. The settled amount may be recovered from you, if a third party pays you after we've settled a claim.

# Our commitment to you

The king and his court are committed to settling all valid claims, as quickly as possible. However, it's in the interest of all our policyholders, including you, that we investigate the validity of every claim. For this reason, delays in authorising claims may sometimes happen. Sorry, but not everyone is as honest as you, so we have to just check to make sure. You understand... Right?

## Settlement of your claim

Only you, the policyholder, have the right to submit a claim to us. Your claim will be paid out according to the amount of cover that you have for each particular insured incident or item (noted as the insured value on your policy schedule), less the excess amount that's payable by you.

Where it's relevant, instead of paying out cash for your claim, the king and his court may decide to rather have repairs done, or to replace the items that you've claimed for. Once we've made any payment, either to you or the third party, our responsibility ends.

Sometimes your claim may be settled through a combination of cash, repairs and replacements. In such cases:

- We may make use of trusted suppliers of our choice.
- We may choose to replace your lost or damaged items with similar items, instead of the exact same kind.

\* **Please note: Our payment of claims is always subject to the insured values noted on your policy schedule.**

**Insured amount  
- Standard excess  
- Additional excess, if applicable**

} = *Your payout*

## Dual insurance... Double cover doesn't = double payout

If a claim is also covered by another insurance policy that you may have, we'll only pay you out for our portion. So, if you insure an item for R100,000 elsewhere and the same item is insured for R100,000 with us as well, we'll only pay half, and the other insurer will be liable for the rest of the amount.

## **We may act on your rights... Let the king protect you**

When you submit a claim, we may act on your rights or obligations against other people to recover costs or defend any claim that they may make against you. If we manage to also recover the excess amount that you've already paid, then we'll refund it to you. Relax, we have your back.

## **Fraud or dishonesty... Honesty is always the best policy**

If your claim is rejected due to fraud or dishonesty, you'll need to pay us back for any expenses that we may have incurred, relating to your claim. If you, or anyone acting on your behalf, submits a claim or any information or documentation relating to any claim, that's in any way fraudulent, dishonest or inflated, we'll reject that entire claim and cancel your policy retrospectively, from the date on which the incident was reported, or from the actual incident date, whichever date is the earlier.

Remember, honesty is always the best policy.

### **Ask the king**

- KP We hate to offend anyone... But it's time to discuss the 'F' word. We're talking, of course, about 'fraud'. We'd rather not even bring it up. But we have to.
- Me Is it possible to commit fraud or be dishonest when submitting a claim?
- KP It's possible. Just not a good idea and anyway, fraudsters always get caught. So please take note of 1 of the king's most serious rules:  
If you or anyone acting on your behalf submits a claim that's in any way fraudulent, dishonest or inflated, the entire claim will be rejected and your policy will be cancelled. And even worse, the king will be extremely disappointed in you.  
The king trusts his loyal subjects, so remember, honesty is always the best policy.

## **Disputed claims... If you're not happy with the outcome**

If you disagree with the outcome (our final decision) of your claim with us, you may, of course, officially object against it. You have a total of 9 months to object against the outcome. During the first 90 days (3 months) of this period you may lodge your objection with us.

Following directly on the first day after the 90-day period, mentioned above, you'll have a further 6 months to serve a formal summons on us. If you haven't formally raised your objection within any of these reasonable time frames, you'll then no longer have the right to challenge the outcome.

\* **Please note: You're more than welcome to send any of the above correspondence to [yourcouncil@kingprice.co.za](mailto:yourcouncil@kingprice.co.za) and we'll take care of it for you.**

# Car insurance

**No matter what car insurance cover you choose, this information is for you. So it's best to read it... Yip, all of it.**

## **By 'car' we mean**

- Any South African-registered motorcar or LDV (light delivery vehicle/car).
- The car that you have insured with us, as noted on your policy schedule.

Cars that are used for any of the following aren't covered by the king:

- Emergency services (including traffic control and armed response).
- Law enforcement.
- Towing.
- Taxi purposes or transporting of fare-paying passengers.

## **What it's worth**

The insured value that's noted on your policy schedule simply refers to what it's covered for. In the event of a claim from you, the maximum amount that we'll pay is the total value of your car minus:

- The basic excess amount that's payable by you, as noted on your policy schedule for each type of claim.
- Any additional excess amounts that are payable by you, if applicable, and if noted on your policy schedule for that type of claim/circumstance.
- Any dual insurance, meaning if you're covered for the same amount at another insurance company, we're only liable for our portion of it.
- Betterment values, if applicable. You're not covered for costs that are regarded as betterment. If a repair requires new or exchange parts that we think are in excess of what's necessary, you may need to contribute to the cost of the repair.

If the car is financed, we'll first pay the outstanding settlement over to the relevant finance institution, up to the maximum insured value. This excludes settlement penalties and interest charges on arrear payments that your finance institution may charge. The balance, if any, will be paid to you.

A car's insured value is calculated by taking into consideration the cost of replacing the car with the same make and model, in the same condition, with similar mileage, and then adding the value of any specified accessories.

If the car has been hi-jacked or stolen and not recovered, or if it has been written off, then we'll pay the insured value, including the value of any specified, non-standard or factory-fitted accessories.

\* **Please note: If your car is stolen, hi-jacked or written-off and we find that it's registered as a code 3 vehicle, we'll pay you up to 70% of its insured value.**

## Who drives your car

The regular driver is the person who drives the car most often during any monthly period and who's noted as such on your policy schedule. You need to let us know immediately if the regular driver of the car changes, like if you give the car to your child, or if your spouse starts using it more than you do.

### Ask the king

- Me I'm confused about the term 'regular driver'. Does it have anything to do with a diet high in fibre?
- KP No. The 'regular driver' is whoever drives the car most in any monthly period.
- Me That would be me.
- KP Good. Then you're the regular driver.
- Me But lately my son drives the car more than me, as I let him drive to the track every day.
- KP Did you tell us about the change of the regular driver so that we could change it on your policy too?
- Me Uh, no.
- KP Unfortunately, that's a problem. We would be charging you a premium based on the risk profile of an older, more experienced driver, such as yourself, rather than the profile of a younger and less experienced driver, like your son.
- Me Oh, I see.
- KP The difference in profile means we would have to charge more to insure your son as the regular driver. So, if the profile is based on you, we'd be receiving the incorrect premium. This, unfortunately, also means that you're not correctly covered. By the way... What does your son do at the track every day, is he training for the Olympics?
- Me No, he wants to be a professional racing car driver.
- KP Well, you better give us all his details immediately so that we can revise your monthly premium.
- Remember, incorrect details = incorrect cover. So, please always keep us up to date on ANY changes.

\* **Please note: Refer to pages 23 and 24 for a list of the insured perils, benefits and optional cover for each of our cover types.**

## What you use your car for

The use that you chose is noted on your policy schedule. To have sufficient cover it's vital that you insure your car for the correct use.

- Private use, is for private or social purposes, including driving between your home and place of work (and shopping on the weekend, visits to your mom and the occasional drive to KFC).
- Business use, includes private use with additional cover, for instances where the car forms an essential part of any work or function.

\* **Please note: Only you, your spouse and the regular driver can be insured for business use of your car.**

## Countries where you're covered

Your car is covered in SA, Botswana, Lesotho, Mozambique, Namibia, Eswatini (Swaziland), Malawi and Zimbabwe when used for private purposes. If your car is insured for business use, then it's not covered while being used for business purposes outside SA. It will only be covered when used for private purposes.

## Keeping your car safe

You may need to fit an anti-theft device in your car, the details of which will be confirmed with you at the inception of your cover, and will also be noted on your policy schedule.

Where a tracking device is a condition of cover, you need to inform the relevant tracking company, immediately after a theft or hi-jacking takes place.

\* **Please note: You won't enjoy theft and hi-jack cover if the required tracking device isn't installed. Your safety is our concern, always.**

## Inspection

Unless your car is brand-new, it's a condition of cover that you have it inspected when you take out the kings' car cover. You can self-inspect via our app (it's super quick and easy) or take your car to an approved inspection centre.

[Click here to download our app.](#) Or, [click here to find an inspection centre close to you.](#)

Any existing damage isn't covered. No inspection = no cover.

## A. Comprehensive cover

### In a nutshell...

Your premium for comprehensive car insurance decreases monthly as your car loses value... So your car is always covered for what it's worth. Comprehensive car insurance covers you for accident damage, theft and hi-jacking, and for damage to other people's property (which in the insurance world is known as third party liability) as the result of a car accident that you're involved in.

### Hail damage

Hail damage to your car is covered, unless otherwise requested by you, and accordingly noted on your policy schedule.

### Locks and keys

You're covered for the cost of replacing lost and damaged keys and remotes, as well as for replacing locks and reprogramming your car's alarm system.

\* **Please note: You'll have to pay the excess amount you've chosen.**

### Towing and storage

- It's vital that you phone the King Price emergency assist line before the car is towed. We'll arrange and authorise the towing of your car. You'll be personally responsible for the towing, storage and recovery of the car, if you don't comply with this.
- In circumstances following an accident, where it's impossible for you or the incident driver to contact King Price before the car is towed, you'll be covered for the reasonable cost to store the car, or to tow it to the nearest King Price-approved storage facility.

- If your claim is declined or there was no contract in place at the time of the incident you'll be personally responsible for the towing, storage, recovery and all other costs incurred.
- If King Price authorises the towing and storage, and it's later found that the contract was invalid, you'll be liable for the reasonable towing and storage costs.

\* **Please note: In the case of an accident, you need to call the King Price emergency assist line and make use of the recommended towing operator and storage facility. If you fail to do so, you'll be liable for the costs. So please save the number of our emergency assist line on your phone now: 0860 50 50 50.**

## Transit

You're covered for the loss of, or damage to, your car due to theft, accident and fire, while it's being transported by road, sea, rail or air. You're covered if:

- The transit is provided by a reputable, registered transport company that has the facility to transport cars.
- Your car is transported on a trailer that's specifically designed to do so, and the driver of the towing car has the correct driver's licence.
- Your car is damaged while being loaded or unloaded for transit.

\* **Please note: You're not covered for damage due to vibration during transit.**

## B. Chilli cover

### In a nutshell...

Chilli is comprehensive car cover, just way cheaper because the less you drive, the less you pay. Just like the comprehensive car cover explained above, you're insured against accident damage, theft and hi-jacking, and for damage to other people's property (which in the insurance world is known as third party liability) as the result of a car accident that you're involved in.

\* **Please note: For more on what's covered by the king, please refer to 'A. Comprehensive cover', because the cover is exactly the same.**

## By 'drive less, pay less' we mean

Not everyone drives the same distance every month, so why should everyone pay the same for their car insurance every month? With chilli, your monthly premium depends on your monthly mileage, as well as your individual risk profile. Essentially, you 'pay per k'. Cool hey?

## Here's how it works

Your first monthly premium will be based on the mileage you drive in an average month. (Because we know you're honest, and we're nice like that.) The value of your car also plays a part. Going forward, your monthly premium will change depending on your previous month's actual mileage, the value of your car, the excess you choose, and your individual risk profile. Please refer to your policy schedule to see how these factors affect your premium breakdown.

**Please note: With chilli your premium doesn't decrease monthly like our normal comprehensive car cover, as the depreciating value of your car is already accounted for in the 'pay per k' premium calculation.**

## Keeping track of your mileage

It's super important to send us monthly mileage updates, and it's super simple to do so. You can either:

- Install a chilli-approved tracking system, which will update us automatically.
- Download our app and follow the 3 easy steps every month.

If you choose the tracking device option:

- There's an additional monthly cost for you, payable to the tracking company, and this must always be up to date.
- The device must be in full working order at all times.
- We may occasionally ask you to send a mileage update via our app.

If you choose the app option:

- [Click here](#) to download our app and find our step-by-step guide to sending your monthly mileage update.
- You need send us your monthly mileage update during the 3 days before your debit order date.
- Our app also has a bunch of other awesome features that make managing your royal insurance super easy.

Whichever option you choose:

- You need to tell us what your car's total mileage is, via our app, on the day that your chilli cover starts, or just before, so that we have a starting point to work from. After that, we'll use your monthly mileage update from your tracking system or the app.
- Your monthly mileage update automatically determines your premium for the next month.
- If you're not going to be driving your car for a few weeks and won't be able to send us your monthly mileage updates during this time, just let us know and we'll debit the lowest premium noted on your policy schedule for that time. This may be applicable if, for example, you're going to be in hospital or on holiday, or if your car is in for repairs.

## Collectable cars

Some cars are super special... Like classic and high-value collectable models. And, if you own a special collectable car, chances are good that you don't drive it every day. That's why we recommend chilli insurance for it.

Because most collectable cars don't have a formal industry value, you'll have to give us a valuation certificate for yours. This valuation will help us to determine an 'agreed value'.

This agreed value will be noted on your policy schedule and:

- Is the maximum amount payable by us in the event of the total loss of your car.
- Must include the non-standard fitted extras and accessories, as well as any parts and accessories you're storing at the insured address.
- Won't depreciate.

 **Please note: It's your responsibility to let us know if your car's value changes.**

We know that parts for your collectable car may not be readily available. So, if you submit a valid claim for damage, we'll come to an arrangement to cover the necessary parts and labour. If possible, we'll manage the repairs through our accredited providers. However, if this isn't an option, we may pay you cash so that you can manage the repair process.

 **Please note: You must do a self-inspection via our app within 30 days of a claim for damage being settled. Failure to do so may affect future claims.**

## C. Theft and write-off cover

### In a nutshell...

This car insurance option covers you for the total loss of your car, like if it's written-off, even if the cause is hail, or if it's stolen or hi-jacked and not recovered. But, if your car is damaged during an attempted theft or hi-jacking, or is found to be damaged after it's recovered, the damage is covered.

### By 'written-off' we mean

When the cost of repairing your car will be more than 65% of its retail value, the car will be written-off. We'll use our supplier network to assess the damage.

### Towing and storage

- It's vital that you phone the King Price emergency assist line before the car is towed. We'll arrange and authorise the towing of your car. You'll be personally responsible for the towing, storage and recovery of the car, if you don't comply with this.
- In circumstances following an accident, where it's impossible for you or the incident driver to contact King Price before the car is towed, you'll be covered for the reasonable cost to store the car, or to tow it to the nearest King Price-approved storage facility.
- If your claim is declined or there was no contract in place at the time of the incident you'll be personally responsible for the towing, storage, recovery and all other costs incurred.
- If King Price authorises the towing and storage, and it's later found that the contract was invalid, you'll be liable for the reasonable towing and storage costs.

### Please note:

- **In the case of an accident, you need to call the King Price emergency assist line and make use of the recommended towing operator and storage facility.**
- **If you fail to do so, you'll be liable for the costs. So please save the number of our emergency assist line on your phone now: 0860 50 50 50.**
- **Car accessories and sound are only covered in a total loss incident.**
- **This option is risk profile-dependent and may not be available for all our clients.**

## D. Third party, fire and theft cover

### In a nutshell...

Here, you're covered for theft and hi-jacking, as well as damage to other people's property (which in the insurance world is known as third party liability) as the result of a car accident that you're involved in.

\* **Please note: Accidental damage to your own car isn't covered by third party, fire and theft insurance.**

## E. Third party only cover

### In a nutshell...

Some cover is way better than no cover at all. Here you're covered for damage to other people's property (which in the insurance world is known as third party liability) as the result of a car accident that you're involved in.

## Liability to others... What's covered

You, the regular driver, and financially-dependent family members who live with you at the address stated on your policy schedule, are covered for legal liability arising from incidents that cause damage to other people's property. Your children who are full-time students are also covered for liability, whether they live at the insured address or not.

This includes legal costs that someone else may recover from you, and which we agree to, in order to settle or defend a claim against you. Our liability is limited to the sum insured that's stated on your policy schedule.

You're covered for incidents that involve:

- An insured car, as stated on your policy schedule.
- Any car being towed by an insured car, as stated on your policy schedule.
- A car being driven by you, or by the regular driver, and which you or they don't own.

\* **Please note: If your claim for loss or damage arising from an incident isn't successful, you cannot claim for liability arising from the incident.**

## **Liability to others... What's NOT covered**

### **You're not covered for liability for death, bodily injury or emotional shock**

This cover is usually required when you travel to neighbouring countries and may be arranged by your travel agency, before you travel or when entering the country.

### **You're not covered for liability arising from loss of, or damage to**

- Property owned by you, or in your control.
- Property owned by, or in the control of, any member of your household, the regular driver or any of your employees.
- A car being driven by you, the regular driver, any of your employees or members of your household, which you or they don't own, or have hired.
- A car being towed by the insured car.

### **You're not covered for liability if your car claim is rejected**

You're not covered for any incident, which causes damage to other people's property or injury to them, when the claim for loss of, or damage to, the car itself isn't covered.

### **You're not covered for liability that's already covered by legislation and/or other insurance contracts such as**

- Any compulsory car insurance act.
- The Occupational Health and Safety Act.
- The Compensation for Occupational Injury and Diseases Act.
- Any other insurance contract.

## Optional cover

Cover more, pay a little more

Your choice, our pleasure

\* **Please note: You may choose to add the following optional extra cover to your car insurance (except if you have 'E. Third party only' cover). They'll only be valid if they're noted on your policy schedule, and an additional monthly premium is charged for each of them.**

### Car sound equipment and other accessories

The insured value of your car covers the value of the car, including the standard, factory-fitted sound equipment and accessories. If your car has additional extras which aren't standard and/or factory-fitted, you must specify and insure them separately in order to have cover for them.

You may select optional cover for the loss of, or damage to:

- Non-standard or factory-fitted car sound equipment.
- Non-standard or factory-fitted car accessories.

If your standard factory-fitted sound equipment and/or accessories are stolen or damaged, your basic car excess will apply. If you prefer a lower excess for these items then you'll need to specify and insure them separately. This additional cover must be noted on your policy schedule and an additional monthly premium must be charged for it.

### Car hire

You may choose to add optional car hire cover to your car insurance cover so that we can help you out with a hired car if the insured car is:

- Damaged (covered by your car insurance policy) and being repaired.
- Damaged (covered by your car insurance policy) and not driveable.
- Stolen or hi-jacked.

\* **Please note: The hired car is available until your car insurance claim is finalised, up to a maximum period of 30 days. Car hire is linked to your car insurance policy. If your car is being repaired under scratch and dent cover, car warranty cover, roadside assist, or any other cover, you can't claim for car hire.**

If you make use of the hired car that we offer while your car is being repaired or replaced, then you'll need to pay:

- The fuel, security deposit and running costs, as well as the collection and delivery fees.
- The excess amount that's payable, in the event of a claim for loss of, or damage to, the hired car.

## **Your premium for car hire is based on the 'group' of cars that you'll hire from**

Here's a quick explanation of the different groups:

- Group A: Manual and radio/CD.
- Group B: Manual, radio/CD, aircon, power steering, ABS and airbags.
- Group C: Manual, radio/CD, aircon, power steering, ABS and airbags.
- Group D: Automatic, radio/CD, aircon, power steering, ABS and airbags.
- Group F: Automatic, radio/CD, aircon, power steering, ABS and airbags.
- Group Y: Manual, radio/CD, aircon, power steering, ABS and airbags.
- Group K: SUV, manual, radio/CD, aircon, power steering and ABS.
- Group H: 1-ton, long wheel base LDV without canopy.
- Group J: 1-ton, long wheel base LDV with/without canopy.

## **What's NOT covered by the king**

 **Please note: The following applies to all car insurance cover options.**

## **You're not covered for driving with an endorsed licence or without a valid driver's licence**

If any person drives the car:

- With a licence that's endorsed for drunken or reckless and negligent driving.
- Without a valid driver's licence or permit for the specific car type.
- With a foreign licence, unless the driver has a valid international driving permit or a valid driver's licence that was issued in the driver's country. The licence must be in English (or translated into English by the authorities of that country), with a photo of the driver and it must be for an equivalent car in SA. Any person living in SA permanently must get an SA licence within 1 year of becoming a permanent resident. If the foreign licence is a provisional or learner's licence, the person must get a valid SA driver's licence.

## **You're not covered for driving under the influence**

If the person who drives the car:

- Is under the influence of alcohol or drugs.
- Has a concentration of alcohol in their blood exceeding the legal limit or fails a breathalyser test.
- Is under the influence of medication used contrary to a practitioner's or the manufacturer's instructions.
- Refuses to give either a breath or blood sample.

## **You're not covered when leaving the scene of an accident**

If the car is involved in an accident and the person who drove the car then leaves the scene of the accident unlawfully, you won't be covered.

## **You're not covered for racing or using the car to earn an income**

There's no cover when the car is used for:

- Racing or competition.
- Driving instruction, towing or hiring for which the driver or the owner receives payment.

## **You're not covered when selling your car**

There's no cover when the car is in the possession of another party, who's selling it on your behalf, including when your car is at a motor dealer to be sold.

## **You're not covered for an unroadworthy car**

There's no cover when the car is involved in an accident and it doesn't meet the roadworthy requirements, as stated by road traffic legislation in SA.

## **You're not covered when your car is used without your consent**

There's no cover for the loss of, or damage to, your car, when any members of your household use it, without your consent or knowledge, and the loss or damage wouldn't have been covered, had you given consent to use the car.

## **You're not covered for modifications to enhance engine performance**

There's no cover for any damage caused, directly or indirectly as a result of modifications to enhance engine performance.

## **You're not covered for incorrect fuelling**

## **You're not covered for loss or damage when you misplace your keys**

There's no cover for any loss or damage due to you leaving your keys in an unsecured place and/or with an unknown person and/or with someone with no responsibility towards your car.

# Car warranty

## In a nutshell...

Our royal car warranty cover ensures that car parts that fail are repaired or replaced... And that your car is back on the road as soon as superhumanly possible. That's our responsibility. It's your responsibility to make sure that these car parts are serviced and maintained as they should be. The best thing about our car warranty is that any 1 can sign on the dotted line for it. If your car is insured with us, if your car isn't insured with us, and even if your car isn't insured at all... You can have King Price car warranty cover!

\* **Please note: Our car warranty insurance isn't a maintenance plan. You're still responsible for maintaining and servicing your car as per the manufacturer's guidelines.**

## By 'car' we mean

Any light motor vehicle or light delivery vehicle (LDV; which weighs less than 3,500kg) that's registered in SA.

We don't cover:

- Taxis and buses.
- Emergency vehicles (like traffic control or armed response).
- Law enforcement vehicles.
- Vehicles used for towing.
- Trucks and heavy commercial vehicles (HCVs).
- Motorbikes.
- Vehicles used for racing or rallying.
- Vehicles that aren't licensed or aren't roadworthy.

## By 'cost of repair' we mean

The usual and reasonable charges for parts and labour to repair or replace the parts that you're claiming for.

## By 'mechanical or electrical failure' we mean

The sudden and unforeseen failure of any of the parts covered by this policy, which arises from mechanical or electrical defects and causes them to stop working, and which as a result need to be repaired or replaced.

## What's covered by the king

### Mechanical or electrical failure

After an unforeseen and unexpected mechanical or electrical failure or breakdown, you're covered for the repair or replacement of the parts, as well as the cost of the necessary labour and associated outwork. If your car's mileage is:

- Less than 200,000km, you're covered up to the limits on page 42.
- Between 200,001km and 250,000km you're covered up to 75% on the limits on page 42.
- Between 250,001km and 300,000km, you're covered up to 50% of the limits on page 42.
- More than 300,001km, you're covered up to 25% of the limits on page 42.

\* **Please note: Please let us know when your car's mileage reaches 300,000km, so that we can re-evaluate this cover.**

### Multiple parts

You're covered for any number of failures or repairs that result from the same incident. Such cases will be treated as 1 claim and the amount we'll pay is limited to the higher insured value. The balance is for your account.

For example, if your car's engine control unit/module (management system) fails and this affects the starter motor (electrical components), and the car warranty option you're paying a premium for covers both these components, we'd cover them both up to the maximum payout of the management system as it's the higher limit.

### Other countries

Your car is covered in SA, Botswana, Lesotho, Mozambique, Namibia, Eswatini (Swaziland), Malawi and Zimbabwe.

\* **Please note: You're not covered for the cost of bringing your car back into SA if it's damaged in another country.**

## What's NOT covered by the king

### Accidents and unreasonable use

You're not covered for damage caused by a car accident or by unreasonable use of the car.

## Alterations and modifications

You're not covered for damage if your car has in any way been altered from the manufacturer's specifications, or if your car has been modified to improve its performance.

## Betterment

You're not covered for costs that are regarded as betterment. If a repair requires new or exchange parts that we think are in excess of what's necessary, you may need to contribute to the cost of the repair.

## Burnt valves

You're not covered for burnt valves caused by a cracked exhaust manifold or by over-fuelling.

## Claim limits

If a claim exceeds the insured value stated on page 42 for the component you're claiming for, you're covered up to the insured value.

You're not covered if the aggregate value of your claims over the past 24 months is more than 50% of the retail value of your car.

### For example:

|  |          |  |
|--|----------|--|
| Your car's retail value                        | R200,000 | <i>R10,000<br/>less than<br/>50% of<br/>the retail<br/>value</i> |
| 50% of your car's retail value                 | R100,000 |  |
| Paid-out car warranty claims over past 2 years | R90,000  |  |
| New valid claim                                | R30,000  |  |
| We'll pay                                      | R10,000  |  |
| For your account                               | R20,000  |  |

The total of your car warranty claims may not be more than the purchase price of your car.

### For example:

|  |          |   |
|--|----------|---|
| Your car's purchase price                      | R200,000 | <i>R20,000<br/>less<br/>than the<br/>purchase<br/>price</i> |
| Total of your car warranty claims              | R180,000 |   |
| Paid-out car warranty claims over past 2 years | R90,000  |   |
| New valid claim                                | R30,000  |   |
| We'll pay                                      | R20,000  |   |
| For your account                               | R10,000  |   |

**Please note: In such cases, the balance would be for your account.**

### **Damage while servicing**

You're not covered for damage caused by incorrect lubricants, improper servicing or malicious damage even if these are supplied, performed or carried out while the car is being serviced.

### **Depreciation**

You're not covered for depreciation.

### **Driveshafts and steering racks**

You're not covered for damage to driveshafts or steering racks as a result of damaged rubber boots or seals, or from damage caused by potholes and road inequalities.

### **Exhausts and catalytic converters**

You're not covered for exhaust systems and catalytic convertors.

### **Faulty workmanship or materials**

You're not covered for damage caused by faulty workmanship or materials.

### **Hoses and pipes**

You're not covered for damage to hoses, pipes, T-pieces, etc.

### **Insured costs**

You're not covered for costs or expenses that are covered by your car insurance policy.

### **Intentional acts**

You're not covered for any loss or damage caused intentionally by you, or with your knowledge.

## **Lack of maintenance**

If your car is still within the manufacturer/factory warranty, you need to continue servicing it at the appointed facility in line with the manufacturer's instructions.

If your car no longer has a factory warranty, you can choose to service it at a factory-appointed or an RMI-registered (retail motor industry) workshop, and you need to continue servicing it in line with the manufacturer's instructions.

Self-servicing your car, or having it serviced at any other facility, doesn't fulfil our maintenance requirement. However, we know that having your car serviced can be a bit inconvenient, so we give you leeway of 1,500km or 30 days of the due mileage or date, whichever happens first.

## **Odometer**

You're not covered if the odometer isn't working, or if we think it's been tampered with, altered or disconnected, or replaced without our knowledge.

## **Oil leaks**

You're not covered for damage resulting from oil leaks or for oil leaks themselves, including oil seals on differentials, side shafts, drive shafts, brake boosters, tappet covers, etc.

## **Parts**

Only the parts stated on page 42 are covered. You're not covered for any parts that are covered by the manufacturer or supplier's warranty when they fail.

## **Pre-existing damage**

You're not covered for damage that we think would've been evident before the start date.

## **Routine maintenance**

You're not covered for the cost of servicing your car, or for routine maintenance.

## **Service items**

You're not covered for service items or items that need to be changed at specific or regular intervals, like oil, grease, filters, hydraulic fluid, additives, anti-freeze, spark plugs, points, condenser, V-belts, cambelts, consumables, shock absorbers, springs, injectors, glow plugs, worn parts, etc.

## **Towing and repatriation**

You're not covered for any costs associated with transporting or towing your car, whether in SA or in any other country.

## **Unauthorised repairs**

You're not covered if you have repairs done without our prior written permission.

You're not covered for damage that happens while the car is being driven by you, or another person with your consent, while not fully licensed to drive or while under the influence of drugs or alcohol.

## **Usage**

You're only covered if the car is used for private purposes.

You're not covered if the car is:

- Used for any business purpose (like being rented out or used for driving instruction for reward).
- Connected with the motor trade (like being used to test brakes or shocks, or to test performance in extreme weather conditions).

## **Wear and tear**

You're not covered for damage caused by parts that wear as part of their function, like diffs, the suspension, wheel bearings, CV joints, clutch, drive pulleys, brake pads, brake linings, tyres, etc. If these parts are replaced as part of a larger repair job, you'll have to contribute to the cost in line with their level of wear and tear.

## **Wiring, immobilisers and security**

You're not covered for damage to any electrical wiring, or to your car's immobiliser or security system, whether factory-fitted or not.

## **Our T's and C's**

### **Authorised providers**

## Eligibility

To be eligible for cover you must:

- Be able to provide a full service history of the car.
- Reside permanently in SA.

## End date

Your cover under this policy will end when:

- You sell the insured car. (Please note that you can't transfer this policy to your new car.)
- The insured car is written-off, or is stolen or hi-jacked and not recovered.
- You tell us to end your cover, provided that you give us a month's notice.

\* **Please note: When your cover ends it doesn't have a cash value.**

## Servicing

If you don't have an up-to-date service history for your car when you take out our car warranty cover, you won't be able to claim. (So take your car to a manufacturer-approved or RMI-registered service centre and have it done before you sign up, okay.)

## Waiting period

We won't pay claims for any damage that happens before, or within 30 days of, the start date.

After the first 30 days have passed, for the next 30-day period, we'll pay 25% of the cost of either the repair or the insured value for the part as stated on page 42, whichever amount is less.

After the first 60 days have passed, you're covered in full up to the insured values stated on page 42.

# Shortfall cover

## In a nutshell...

If the car or motorbike that we insure comprehensively for you is financed by a financial institution, and it's written-off, stolen or hi-jacked, then shortfall cover pays any amount that you may still owe the financier after we've paid out the value of the car or motorbike. This cover must be noted on your policy schedule, and additional premium is payable.

## What's covered by the king

- The difference between what your car or motorbike is worth at the time of being written-off, stolen or hi-jacked, and what you may still owe the financial institution for it, if:
  - Your car or motorbike can't be recovered after the theft or hi-jacking.
  - It's not cost-effective to repair your car or motorbike after the accident or other insured incident.
- Balloon payments and residual values.

## What's NOT covered by the king

- Higher settlement amounts due to re-financing or re-advance amounts.
- Any payment arrears, interest on arrear amounts, or other extra finance charges.
- Early settlement charges.
- Any amount over and above the financed amount or original purchase price of the car or motorbike.
- Any amounts that are refundable to you.
- The excess amount/s that's applicable to your comprehensive car or motorbike cover, and any other amount/s that may rightfully be deducted from the car or motorbike claim.
- Non-standard sound equipment, and extra trimmings and accessories, that have been fitted to your car or motorbike but which you haven't noted on your policy schedule and which aren't part of the original finance agreement.
- Any claim under this section if your claim for the loss of, or damage to, your car or motorbike is unsuccessful, or if your King Price policy is cancelled.

# Scratch and dent

## In a nutshell...

Scratch and dent covers minor repairs to the exterior of your car... Like those mysterious little dings that happen in parking lots, and those annoying spots of tar that stick like superglue.

You know how some things are better together, like burgers and cheese sauce? Well, we've put 2 of our value-added products together, to bring you extra cover at a better price. It's called 'little dings and tyre things' and it combines our scratch and dent cover with cover for your tyres and rims. (See page 46 for more.)

## What's covered by the king

In any 12-month period we'll pay an unlimited number of claims, up to a limit of R3,000 per claim. An excess of R250 applies to each claim.

## Chips

You're covered for the repair of minor chips (smaller than 1.5mm in diameter) on the bodywork of your car.

## Hail

You're covered to repair damage that's caused by hail, once in any 12-month period. If your royal car cover also includes cover for hail damage, you may choose which insurance to claim from.

## Mags and rims

You're covered for the repair of damage to your car's mag wheels and wheel rims. If a mag or rim is damaged to such an extent it can't be repaired, this isn't covered.

## Minor dents

You're covered for the repair of minor dents (smaller than 15cm in diameter) on the bodywork of your car. If any part of a body panel has been ripped or torn, it isn't covered.

## Minor scratches

You're covered for the repair of minor scratches (smaller than 15cm in length) on the bodywork of your car. If any part of a body panel has been ripped or torn, it isn't covered.

## Tar removal

You're covered for an unlimited number of tar removals.

## What's NOT covered by the king

You're not covered for:

- Repairs not listed under 'what's covered by the king'.
- Repairs to pre-existing damage, including rust and any other gradually-developing cause.
- Repairs that are done without our written permission, or that aren't done by our authorised service providers.
- Single claims that exceed R3,000.
- The replacement of body panels or parts thereof, or repairs due to the replacement of body panels or parts thereof.
- Damage to accessories, door mouldings, window mouldings and beading.
- Damage to tyres and stickers.
- Any depreciation in value arising from repairs.
- Repairs that are done outside of South Africa.

## Our T's and C's

### Accumulation

You can't accumulate damage, and must claim per incident.

### Comprehensive cover

You can only have scratch and dent cover if your car is comprehensively covered by us.

### Selective repairs

You can't elect to only have certain damage repaired. All damage will be taken into account when calculating the cost of a repair.

### Transferability

If you sell the insured car, the remaining part of this policy can't be transferred to the new owner or your new car.

# Tyre and rim

## In a nutshell...

Our tyre and rim insurance covers, well, your tyres and rims. We'll repair your tyres if they're repairable, and we'll replace them if they aren't. We'll also fix your rims if we can. So, damage from rocks, broken glass, potholes, steel and other road hazards = no problem, when you're with the king. (We're nice like that.)

Also, some things are better together, like softserve and sugar cones, so we've put 2 of our value-added products together, to bring you extra cover at a better price. It's called 'little dings and tyre things' and it combines this tyre and rim cover with cover for scratches and dents. (See page 44 for more.)

## Our T's and C's

# Motorbike insurance

**No matter what motorbike insurance cover you choose, this information is for you. So it's best to read it... Yip, all of it.**

## **By 'motorbike' we mean**

- Any South African NATIS-registered motorbike.
- The motorbike that you've insured with us, as noted on your policy schedule, including all its parts and attached accessories.

Motorbikes that are used for the following aren't covered by the king:

- Emergency services (including traffic control and armed response).
- Law enforcement.
- Towing.
- Taxi purposes or transporting of fare-paying passengers.
- Collections and deliveries.

The following aren't covered by the king:

- Full off-road bikes.
- Quad bikes.
- Trail bikes.
- Pit bikes.
- Buggies and side-by-sides.
- Hyper superbikes.

## **Who rides your motorbike**

Only the named rider noted on your policy schedule will be covered in the event of a claim. This means that there won't be cover if anyone else rides your motorbike.

You may ask us to consider an alternative rider for a period of time that's less than 30 days. You'll have to provide us with this person's insurance, claims and driver's licence history before we'll consider it and, if we approve, we'll give consent in writing. If this change is applicable for more than 30 days, we'll need to change the named rider noted on your policy schedule and adjust your premium accordingly.

**Please note: You need to keep us up to date on ANY changes. Remember, incorrect details = incorrect cover.**

## Ask the king

- Me I'm confused about the term 'named rider'.
- KP This is the only person who rides the motorbike.
- Me That would be me.
- KP Good! Because if you need to claim for an incident where anyone else was riding the bike, it won't be covered.
- Me What if my son borrows it occasionally?
- KP Unfortunately, that's a problem. If your son rides your motorbike, we'd have to change the named rider and the risk profile and premium so that they reflect his age and riding experience. But, then the motorbike wouldn't be covered when you ride it.
- Me Oh. I see. So, my mates can't take it for a spin?
- KP Not if you want to be covered for any possible damage or liability.
- Me What if I want to lend my bike to a mate who's visiting from Oz for a few days?
- KP You'd need to let us know first, and you'd need to let us have your friend's claims history. If we say it's okay, we'll let you know in writing. If the visit is going to last longer than 30 days we'll have to change the named rider for the period and we may adjust your premium.

## What it's worth

The agreed value that's noted on your policy schedule refers to the amount that the motorbike is covered for.

This agreed value must be, well, agreed on by you and us, and must include the non-standard fitted extras and accessories.

This agreed value won't depreciate, and so your motorbike premium won't decrease monthly.

It's your responsibility to review this agreed value at least every 6 months.

## Inspection

Unless your motorbike is brand-new, it's a condition of cover that you have it inspected when you take out the kings' motorbike cover. You can self-inspect via our app (it's super quick and easy) or take your car to an approved inspection centre.

[Click here to download our app.](#) Or, [click here to find an inspection centre close to you.](#) Any existing damage isn't covered. No inspection = no cover.

## Ask the king

- Me I paid R200,000 for my motorbike, which was higher than the book value. (Don't tell my wife.) Is that the agreed value?
- KP No. The agreed value is what we agree it is.
- Me I added rims worth R5,000. Must I specify them separately?
- KP No. They must be added into the agreed value, along with all other extras and accessories.
- Me Will the value of my motorbike depreciate?
- KP If it does, it won't affect the agreed value, and your premium won't decrease. It's up to you to revisit the agreed value regularly.
- Me So, can we agree that my motorbike is worth R230,000?
- KP Yes, but remember that the agreed value affects your premium...
- Me I'll have to run it past my wife...

## In the event of a claim

The maximum amount that we'll pay is the agreed value minus:

- The basic excess amount that's payable by you, as noted on your policy schedule for each type of claim.
- Any applicable additional excess amounts that are noted on your policy schedule for that type of claim.
- Any dual insurance, meaning that if you're covered for the same amount at another insurance company, we're only liable for our portion of it.
- Betterment values, if applicable. You're not covered for costs that are regarded as betterment. If a repair requires new or exchange parts that we think are in excess of what's necessary, you may need to contribute to the cost of the repair.

If the motorbike is financed, we'll first pay the outstanding settlement over to the relevant finance institution, up to the agreed value. We won't pay settlement penalties and interest charges on arrear payments that your finance institution may charge. The balance, if any, will be paid to you.

**Please note: If the motorbike is found to be a code 3 we'll determine the reasonable rebuild value, which will never exceed the agreed value. The agreed value must include all standard and non-standard accessories, and it's your responsibility to ensure that the agreed value always reflects the value of the motorbike and these accessories.**

## What you use your motorbike for

The use that you choose is noted on your policy schedule. It's vital that you insure your motorbike for the correct use.

- Private use covers the named rider for private and social purposes, including riding between home and work (and shopping on the weekend, visiting mom, and stopping in at KFC).
- Business use covers the named rider for private use, with additional cover for when the motorbike forms an essential part of any work or function but excluding deliveries.

## Your licence

You aren't covered for riding with an endorsed licence or without a valid licence.

You're also not covered for riding with a foreign licence, unless you have a valid international permit or licence that was issued in your country. The licence must be in English (or be translated into English by the authorities of that country), and must have a photo of you. Any person living in SA permanently must get a SA licence within 1 year of becoming a permanent resident. If the foreign licence is a provisional or learner's licence, you must get a valid SA driver's licence.

If you only have a learner's licence, you're not covered if you're carrying a passenger at the time of an incident.

## Countries where you're covered

Your motorbike is covered in SA, Botswana, Lesotho, Mozambique, Namibia, Eswatini (Swaziland), Malawi and Zimbabwe when used for private purposes. If your motorbike is insured for business use, then it's not covered while being used for business purposes outside SA. It will only be covered when being used for private purposes.

## Keeping your motorbike safe

You may need to fit an anti-theft device to your motorbike, the details of which will be confirmed with you at the inception of your cover, and will also be noted on your policy schedule.

Where a tracking device is a condition of cover, you need to inform the relevant tracking company, immediately after a theft or hi-jacking takes place.

 **Please note: You won't enjoy theft and hi-jack cover if the required tracking device isn't installed. Your safety is our concern, always.**

## Motorbike insurance options

### Your choice, our pleasure

You may insure your motorbike for any 1 of the following options:

- A. Comprehensive
- B. Third party and theft
- C. Third party only
- D. Theft only

### A. Comprehensive

#### In a nutshell...

Comprehensive motorbike insurance covers you for accident damage, theft and hi-jacking, and for damage to other people's property (which in the insurance world is known as third party liability) as the result of a motorbike accident that you're involved in. You're also covered for medical expenses for the named rider following an accident involving the insured motorbike, as well as for some accidental damage that happens at track school. We'll also come to your aid if you get stuck at the side of the road or have an accident.

### What's covered by the king

#### Hail damage

Hail damage to your motorbike is covered.

#### Locks and keys

If your motorbike keys are stolen, you're covered up to the insured values that's noted on your policy schedule, per incident, for the cost of replacing locks, keys and the remote alarm controller, and for reprogramming the coded alarm system.

# Watercraft insurance

## In a nutshell...

Launch your boat, add some sunscreen, and you're all set, right? Um, no. A lot of things can go wrong when you're out on the water, and also when you're still on your way to the water. That's why the king offers comprehensive cover for your watercraft and liability cover in case things go very wrong. (You still need sunscreen though.)

## By 'watercraft' we mean

Any South African-registered boat used on water for social, domestic or pleasure purposes, and for the purpose that it's designed for, such as a motor, ski or rowing boat, yacht, rubber duck or jet ski, including its hull, engines and machinery.

The watercraft that you have insured with us, as noted on your policy schedule.

Watercraft that are used for any of the following aren't covered by the king:

- Emergency services.
- Law enforcement.
- Racing.
- Piracy.
- Towing other watercraft.
- Taxi purposes or transporting fare-paying passengers.
- Earning any kind of income.
- Houseboat or permanent home.

## Please note:

- **It's a condition of cover that your watercraft has the necessary safety and fire extinguishing equipment on board.**
- **Your safety equipment and accessories that form part of the watercraft may also be insured, but this will be at an additional monthly premium and they must be specified separately on your policy schedule.**
- **Items like water-skis, wakeboards, fishing rods, wetsuits, diving equipment, fish finders and GPS/navigation units must be insured separately as portable possessions.**
- **Any trailer used to transport any watercraft must be insured separately under the king's trailer section.**

## What it's worth

The agreed value that's noted on your policy schedule refers to the amount that your watercraft is covered for. This agreed value must be, well, agreed on by you and us, and must include the non-standard fitted extras and accessories. A watercraft's agreed value is calculated by taking into consideration the cost of replacing the watercraft with the same make and model, in the same condition, with similar mileage, and then adding the value of any specified accessories.

This agreed value won't depreciate, and so your watercraft premium won't decrease monthly. It's your responsibility to review this agreed value at least every 6 months.

In the event of a claim from you, the maximum amount that we'll pay is the agreed value of your watercraft minus:

- The basic excess amount that's payable by you, as noted on your policy schedule for each type of claim.
- Any additional excess amounts that are payable by you, if applicable, and if noted on your policy schedule for that type of incident.
- Any dual insurance, meaning if you're covered for the same watercraft at another insurance company, we're only liable for our portion of a claim.
- Betterment values, if applicable. You're not covered for costs that are regarded as betterment. If a repair requires new or exchange parts that we think are in excess of what's necessary, you may need to contribute to the cost of the repair.

If your watercraft is financed, we'll first pay the outstanding settlement over to the relevant finance institution, up to the agreed value. This excludes settlement penalties and interest charges on arrear payments that your finance institution may charge. The balance, if any, will be paid to you.

If your watercraft is hi-jacked or stolen and not recovered, or if it's written-off, then we'll pay the agreed value, including the value of any non-standard or factory-fitted accessories noted on your policy schedule.

## Your payout

The agreed value should be the reasonable market value of your watercraft. This means the amount that it'll cost you at the time of a claim to replace your watercraft.

## Understanding under-insurance

If you insure your watercraft for an amount that's less than its reasonable market value, then we'll pay your claim out proportionately. So, if the value of your watercraft is R400,000 and you only insure it for R200,000, then you'll only be compensated for 50% of your loss.

## Insured value

- Excess
- Dual insurance, if applicable
- Under-insurance, if applicable

} = Your payout

## Who skippers your watercraft

The regular skipper (pilot or rider) is the person who skippers the watercraft most often during any monthly period and who's noted as such on your policy schedule. You need to let us know immediately if the regular skipper changes, like if your spouse or children start using the watercraft more than you do.

## Countries where you're covered

Your watercraft is covered in South Africa, Namibia, Botswana, Lesotho, Mozambique, Eswatini (Swaziland), Malawi and Zimbabwe.

The watercraft is covered when it's:

- Ashore in South Africa, Namibia, Botswana, Lesotho, Malawi, Mozambique, Eswatini (Swaziland) and Zimbabwe.
- Afloat on inland waters or coastal water within 20km of the coast of South Africa, Namibia and Mozambique.
- Being transported by land or sea.

\* **Please note: Cover outside South Africa is limited to own damage only.**

## Repatriation clause

In the event of any incident that you can claim for while your insured watercraft is outside of South Africa, you'll be responsible for arranging the repatriation of the watercraft to South Africa. You're covered for repatriation costs, limited to R15,000.

No payment will be made in terms of this cover until the watercraft has been repatriated to South Africa.

## Keeping your watercraft safe

There's no cover for the loss of, or damage to, any watercraft that's left unattended. You're covered if the watercraft is buoyed within a designated and secured area, or if it's stored in a registered, secure facility or locked garage.

There's no cover if the engine isn't secured to the hull in accordance with the manufacturer's instructions. Theft of engines will only be covered if there are clear signs of forced or violent entry to the watercraft or place of storage.

 **Please note: If an engine is immersed in water, you must ensure that it's immediately flushed out and restarted, if possible, by a qualified repairer.**

## Towing and storage

If your insured watercraft is involved in an accident while it's being towed behind your car, you must phone the King Price emergency assist line before it's towed from the accident scene by a towing operator. We'll arrange and authorise the towing of the insured watercraft (and the car and trailer if they're also insured with us). If you don't comply with this, you'll be personally responsible for the towing, storage and recovery of the items that we insure.

If, after an accident, it's impossible for you or the incident driver to contact us before the watercraft is towed, you'll be covered for the reasonable cost to store the watercraft, or to tow it to the nearest King Price approved storage facility.

If your claim is declined or there was no insurance contract in place at the time of the incident you'll have no cover and will be personally responsible for the towing, storage, recovery and all other costs incurred.

If we authorise the towing and storage, and it's later found that the insurance contract was invalid, you'll be liable for the reasonable towing and storage costs.

 **Please note: In the case of an accident, you need to call the King Price emergency assist line and make use of the recommended towing operator and storage facility. If you don't, you'll be liable for the costs. So please save the number of our emergency assist line on your phone now: 0860 50 50 50.**

# Home contents insurance

**Whichever home contents cover option you choose, you need to read this section. Trust us.**

## **By 'home contents' we mean**

Imagine turning your house upside down... Everything that would fall out, should be included under your home contents insurance cover.

So, this means all personal items inside your home and outbuildings at the address noted on your policy schedule. Outbuildings, whether they're separate from the home or not, include garages, domestic quarters and storerooms. The outbuildings must be built from similar material as the main building. The contents must belong to you or to any members of your household who live with you, but not including tenants.

\* **Please note: Jewellery and watches with individual values of more than R35,000 must be locked in a securely bolted SABS-compliant safe when not being worn. Home contents insurance only covers items inside your home. If you need cover outside your home, these items must be specified as portable possessions, irrespective of their value.**

## **What it's worth**

The insured value noted on your policy schedule is the maximum amount that we'll pay for any of your home contents insurance-related claims, less the excess amounts payable by you, and less any dual and under-insurance.

### **Insured value**

- Excess
- Dual insurance, if applicable
- Under-insurance, if applicable

} = Your payout

## **Understanding under-insurance**

You need to insure your contents for their total replacement value, meaning the cost of replacing the items that you're claiming for with new items. If you insure the contents for an amount less than their replacement value, we'll then pay you proportionately.

So, if the correct total insured value of the home contents at the time of a claim is R400,000 and you insure them for R200,000 only, then you'll only be compensated for 50% of your loss.

\* **Please note: You must make sure that your replacement value is realistic, so that you'll have enough cover when you need it. Remember, it's always better to be over-insured, than under-insured.**

## Ask the king

Me I have a friend who had some problems recently and is thinking of changing insurance companies and signing up with King Price. He has a few questions about insurance cover, particularly in the area of home contents. Here's what happened...

It was during a terrible storm at night and a bolt of lightning struck 1 of my friend's outbuildings, causing a power surge that damaged his computer, while also causing a small explosion and a fire. This caused a large tree to become unrooted, which fell over, hit the car and caused it to roll into his swimming pool. But that's not all. Standing in the pouring rain attempting to assess the damage, my friend was almost hit by a flying toilet, which crashed into his garage. (It was later discovered that an aircraft, flying overhead at the time, was also affected by the lightning, and the aircraft's toilet disengaged and plummeted downward, towards my friend's house). But that's still not all. A few days later, the neighbours, believing that my friend was to blame for all the misfortune, angrily spray-painted graffiti all over his yard and front wall. My friend wants to know: If he becomes a King Price client... Would he be covered the next time this happens?

KP Yes. If he was under the king's protection, he'd be covered. Although tell your friend not to call us, but to rather contact another insurance company. He's got to be the unluckiest guy we've ever heard of. However, just to recap for all our current policyholders... The king generously covers you for loss or damage caused by all of the following...

- Excavations, other than mining activities.
- Removal or weakening of pillars.
- Normal settlement, shrinkage or expansion of the soil supporting the structures.
- The poor compaction of soil used to fill areas under paving and floors.
- Defective design, material and workmanship.

You're not covered for loss of, or damage to, your home contents as a result of damage to retaining walls, unless they're designed and built according to structural engineering specifications.

### **You're covered for loss or damage due to**

### **You're covered for temporary accommodation**

- Following an incident for which you may claim, we'll pay for the reasonable costs of other temporary accommodation for you or your tenant, as a result of the insured building being unfit to live in.
- Cover's limited to 10% of the insured value and applies only for the period that's reasonably required to make the building fit to live in.
- If the insured building is sublet to holidaymakers or used as a guesthouse, then we won't pay for other, temporary accommodation for such guests while your building is being repaired.

### **You're covered for the transportation of contents**

You're covered for damage to, or loss of, your belongings if they are being transported by a registered removal company's truck, that's involved in an accident.

So, if your geyser bursts and water drips through your ceiling, damaging a couch, we'll replace the couch... But, if it's part of a suite, we won't replace all of the couches. If you want to replace the undamaged couches, as they no longer match, we won't pay for this.

## **You're not covered for damage that's either caused or contributed to by**

# Buildings insurance

## In a nutshell...

Under buildings insurance you're covered for damage to the physical structures on your property, such as your home and its outbuildings.

## By 'buildings' we mean

The physical and permanent structures on the property, such as your home and its outbuildings, whether they're separate from the property or not, at the address that's noted on your policy schedule. The outbuildings must be built from material that's similar to the main building.

So, all permanent fixtures, fittings and improvements, such as driveways, walls, garages, fences, patios, swimming pools, as well as boreholes, swimming pools and spa pumps, gate motors, tennis courts, underground pipes and cables, can be insured under this section.

**Please note: Dams and dam walls, loose gravel paths and coverings, as well as pool cleaning equipment are excluded.**

## What it's worth

The insured value noted on your policy schedule is the maximum amount that we'll pay for any of your buildings insurance-related claims, less the excess amounts payable by you, and less any dual and under-insurance.

### Insured value

- Excess
- Dual insurance, if applicable
- Under-insurance, if applicable

} = Your payout

You need to insure your buildings for their replacement value. This means the amount that it will cost you at the time of the claim, to repair or rebuild your property with new materials, also providing for the outbuildings, walls, swimming pool, etc.

The replacement value must also provide sufficiently for the following possible additional costs:

- Professional and municipal fees.
- Demolition charges.
- Waste removal.
- Making the site safe.

## Understanding under-insurance

If you insure the building for an amount less than its replacement value, we'll then pay your claim out proportionately.

So, if the value of your building is R400,000 and you only insure it for R200,000, then you'll only be compensated for 50% of your loss.

\* **Please note: You must make sure that your replacement value is realistic, so that you'll have enough cover when you need it. Remember, it's always better to be over-insured, than under-insured.**

## Ask the king

Me I have a question about buildings insurance. I'm a newlywed and my wife and I just moved into our new house in the suburbs. I went to inspect 1 of the outbuildings in the back garden last week only to discover that a gang of people had moved in. They definitely weren't there when I moved in and when I questioned them, they said that they have a 'right' to be there. I've checked and they aren't 'holidaymakers' and worse, they seem to be planning on staying for quite a while. 2 days ago, I saw a truck arrive with suitcases and furniture. And just last night they showed up at the dinner table expecting to be fed! What should I do? Am I covered by the king for this?

KP First of all, do you have any idea how these people gained entry to your property?

Me I'm not sure, but I think my wife gave them a key.

KP ... Sorry?

Me I said I'm not sure, but I think my wife gave them a key.

KP Do you mind if I ask you a personal question? Do you know this 'gang of people' staying in your outbuilding?

Me Well... The incredibly scary leader is my wife's mother. And her partner seems to be her husband, who's also my wife's father.

KP Aha. This 'group of people' apparently staying on your property are what's commonly known as 'in-laws'. Before asking the king to step in, may we suggest that you first have a long talk with your wife...

- Fire.

- Acts of nature such as a storm, wind, lightning, hail, flood, snow or earthquake.

- Other immovable structures, fixtures, fittings and improvements (e.g. ceilings, carpets and cupboards), damaged in the same incident, are covered.

**Please note: There's no cover for sewerage or waste pipes.**

You're covered for charges made by the fire brigade or any public authority following an incident for which you may claim.

## **You're covered for temporary accommodation**

Following an incident for which you may claim, we'll pay for the reasonable costs of other temporary accommodation for you or your tenant, as a result of the insured building being unfit to live in.

- Cover's limited to 10% of the insured value and applies only for the period that's reasonably required to make the building fit to live in.
- If the insured building is sublet to holidaymakers or used as a guesthouse, then we won't pay for other, temporary accommodation for such guests while your building is being repaired.

## **Subsidence**

You're covered for damage that's caused to your property by the sinking, or downward movement, of the land that supports it, due to natural shifts or human activity.

- Excavations, other than mining activities.
- Removal or weakening of pillars.
- Defective design, material and workmanship.

- The poor compaction of soil used to fill areas under paving and floors.

- For glass and sanitary ware which are accidentally broken.
- For personal liability.
- For stolen building materials, fixtures, fittings and improvements.

### **You're not covered for scorching**

There's no cover for loss or damage caused by scorching. So, if a hot iron scorches a carpet, even if it's a fitted carpet that's covered under other sections of buildings insurance, you can't claim for it. (Life hack: Buy an ironing board to prevent repeat incidents.)

### **You're not covered for matching materials**

There's no cover for any additional costs resulting from the unavailability of matching materials.

So, if we fix your burst pipe and some tiles are damaged in your bathroom, and you then want to replace the undamaged tiles too, as they no longer match, then we won't pay for the replacement of the undamaged tiles.

### **You're not covered for damage that's either caused, or contributed to, by**

# Portable possessions insurance

## In a nutshell...

This section covers you for the loss of, or damage to, those precious portable items that you normally carry with you. If your valuables are out on the town with you, or with someone who lives with you, and something bad happens to them. Don't worry! If you have insurance for your personal portable possessions with the king, you're covered, wherever you are in the world.

## By 'portable possessions' we mean

Home contents insurance covers all your things while they're under your roof. Portable possessions insurance covers items when they're outside or off your property. Items like your phone, laptop, engagement ring, watch, gym bag and other things that you carry with you every day should have portable possessions cover because, the moment you step out your front door with them, they're not covered under home contents any more.

Under portable possessions we cover items that belong to you, and to any 1 who normally lives with you. We cover them for accidental damage, theft and loss, anywhere in the world.

Portable possessions can be specified or unspecified, and it's your responsibility to ensure they're covered correctly.

\* **Please note: You're only covered for portable possessions if the items are noted on your policy schedule and you pay an additional monthly premium for them.**

## What it's worth

The insured value that's noted on your policy schedule is the maximum amount that we'll pay for any claim, less the excess amounts payable by you, and less any dual insurance and under-insurance.

### Insured value

- Excess
- Dual insurance, if applicable
- Under-insurance, if applicable

} = Your payout

## Understanding under-insurance

You need to insure your portable possessions for their total replacement value. This means the cost of replacing your lost or damaged items with new items. If you insure any items for an amount less than their replacement value, we'll then pay you proportionately.

So, if the correct total insured value for your portable possessions at the time of a claim is R200,000 and you've only insured them for R100,000, then we'll only pay out for half of your loss.

- \* **Please note: You must make sure that your replacement value is realistic, so that you'll have enough cover when you need it. Remember, it's always better to be over-insured, than under-insured.**

## Time to be specific

- \* **Please note: Possessions insured under this section fall into 1 of the following categories.**

## Unspecified portable possessions

For unspecified portable possessions, you decide on an insured value that'll cover your losses in any 1 incident. Within this combined value, we cover 1 single item up to a maximum of R2,000.

As an example, if you choose an insured value of R5,000 and your gym bag is stolen, your claim might look like this:

|             |        |
|-------------|--------|
| Bag:        | R1,000 |
| Towel:      | R200   |
| Trainers:   | R2,000 |
| Work pants: | R300   |
| Work shirt: | R400   |
| Work shoes: | R500   |
| Toiletries: | R200   |

The total amount for this loss is R4,600, which falls within your R5,000 insured value. But, the excess amount for all unspecified portable possessions claims is R500, so we'd pay you out R4,100 for a valid claim.

If your wallet, worth R1,000, was also in the bag, your claim might be R5,600 but we'd pay out your R5,000 insured value, less your R500 excess.

However, if your trainers (or any other unspecified item being claimed for) are valued at more than R2,000 we'll only pay up to R2,000 for them.

## Specified portable possessions

A basic guide is that, if a portable possession is worth more than R2,000, it should be specified. This list includes:

- Jewellery and watches.
- Leather jackets, and expensive clothing, shoes and bags.
- Laptops and tablets.
- Cameras and GPS units.
- Golf clubs and sports equipment.
- Prams, carry cots and kiddies' car seats.

There are also some portable possessions that we'll ONLY insure as specified items, and which aren't covered at all under home contents:

- Cellphones.
- Bicycles.
- Contact lenses, and prescription specs and sunglasses
- Hearing aids.

 **Please note: The excess amount for specified portable possessions is 5% of the claim cost, with a minimum of R500.**

## Bling cellphone insurance

Bling cellphones are covered as specified portable possessions, which means that your bling cover is worldwide. Please refer to page 96 for more info on specified portable possessions.

**\* Please note: Bling cellphones are the only items you can insure as standalone products under portable possessions. If you want to cover other portable possessions, you need to have car, buildings or home contents cover with us as well.**

You have 3 options to choose from:

- Brand-new cover means we'll repair your damaged phone if we can or replace it with a brand-spanking-new phone if we need to, following theft, loss, accidental damage or water damage.
- Like-new cover means we'll repair your damaged phone if we can, or replace it if we need to, following theft, loss, accidental damage or water damage. Replacement will be with a similar make and model or a similar, refurbished phone. Your replacement phone will come with a 12-month warranty.
- Screen-fix cover is only for cracks to your phone's screen due to accidental damage.

Each option has a different excess structure. Please refer to your policy schedule for the excess that applies to the option you choose.

You're only covered if:

- The IMEI number of the phone that you're claiming for matches that IMEI number that's noted on your policy schedule.
- The phone with the IMEI number that's noted on your policy schedule has been used to make or receive a call, or to send or receive an SMS, using the phone number (SIM card) that's noted on your policy schedule.

If you upgrade, downgrade or change phones for any reason, you can easily increase or decrease your cover via our app, as needed, based on the phone's replacement value.

**\* Please note: You must make sure that the replacement value you choose for your bling cellphone is realistic, so that you'll have enough cover when you need it.**

## How to claim

You must register your bling claim via our app or website.

If your cellphone is stolen or lost, you must:

- Blacklist the phone with your service provider and get a reference number.
- Report the incident to the police, and get a case number. The police will need the blacklist reference number.
- Include the blacklist reference and police case numbers when you claim.
- Arrange your new SIM card. (We only take care of the phone.)

If your phone is damaged, our supplier will be in touch to collect it and deliver it back to you after it's been repaired. Our supplier will also deliver your new phone if we've replaced it for you.

If we replace your phone after a claim via our app or website, we'll automatically delete your old phone and add your replacement phone, so your bling cover continues uninterrupted... We're nice like that.

 **Please note: It's super important that you let us know if you get a new SIM card or cellphone number, before any claim is registered, otherwise you won't be covered.**

## R1 insurance

If you have comprehensive car or motorbike insurance with us, you can also insure some of your favourite portable possessions for just R1 monthly. (And no, that's not a typo!)

With a comprehensively insured car you can choose R1 cover for your:

- Golf clubs.
- Bicycle.
- Hearing aids.

With a comprehensively insured motorbike, you can cover your motorbike gear for just R1 monthly.

When you comprehensively cover 1 car, you can cover 1 x R1 item. When you cover 2+ cars, you can cover an equal number of R1 items. You can also insure motorbike gear for every comprehensively-insured motorbike.

If you end your royal cover for the car or motorbike that's linked to a R1 insurance item then we'll continue to insure the R1 item, but at our normal rate.

After a claim for a R1 item, we may review the monthly premium for it.

## Bicycle insurance

You're covered for the loss of, or damage to, any part of your specified bicycle, as a result of:

- Accidental damage (even if sustained in a race, provided that you don't compete as a professional).
- Theft of the bicycle that happens anywhere in the world.
- Theft of the bicycle off a rack or carrier, provided that the bicycle was locked to the rack or carrier and the rack or carrier was secured to the car.

\* **Please note: You can insure your bicycle for just R1 per month, if you have comprehensive car cover with us! Your car premium will decrease every month but your bicycle premium, understandably, won't. Refer to [kingprice.co.za](http://kingprice.co.za) for more info on R1 insurance.**

We may settle your claim by paying out cash, or repairing or replacing the bicycle or parts thereof. If the bicycle or parts are still under warranty and a repair would influence the warranty, we'll uphold the warranty on the repair for as long as the manufacturer's warranty would have been in place. Our warranty on repairs can be transferred to the new owner should the bicycle be sold within this warranty period.

## Ask the king

- Me I only use my laptop to see the cute puppy photos on Instagram.
- KP That's great, there's no income being earned from that, so you can insure it as a portable possession.
- Me Actually, the laptop belongs to my husband's business and he also uses it to generate invoices...
- KP Uh oh! That's definitely an income-earning activity... For us to cover the laptop correctly, he should insure it with his business' insurance.
- Me But will I have to go sit in his office to see the puppies?
- KP No, it'll be covered wherever you are. Hey, do you follow @dogsofinstagram? #cutenessoverload!

## You're not covered for items inside an unoccupied car

### Ask the king

Me I've just finished reading and studying my King Price Policy Document and checking the details on my policy schedule. The good news is, I think I understand everything and have learnt so much about insurance cover. So my question is... What's next? What happens now?

KP What happens now? That's easy. Go forth, live your life, work hard, play hard, take care of your loved ones and enjoy this great nation of ours. And, other than taking care of your responsibilities outlined in this document and paying your monthly premiums, of course... Relax. We'll handle the rest.

Me Wait a minute. I thought we were just getting to know each other... Developing a friendship here. There must be something else I can do?

KP Well, now that you mention it, you can spread the word... And the savings. Tell your friends about King Price and our royal service and super cheap premiums.

Me You got it.

# Personal accident insurance

## In a nutshell...

If your family depends on you financially, it can be devastating if you're not able to support them because of death or disability. For peace of mind, the king's personal accident cover pays out a lump sum if you, or your dependants, are permanently disabled after an accident and in the unfortunate event of your, or their, accidental death. What's more, what you spend this amount on is completely up to you.

### By 'accident' we mean

An unexpected and unintentional event caused by violent, external and visible means, which results in injury leading to disability or death within 12 months of the event.

### By 'dependant' we mean

A child dependant is:

- Your child, stepchild, adopted child or foster child, between the ages of 14 and 21.
- Financially dependent on you.

An adult dependant is:

- 21 years and older.
- Related to you by blood, or closely connected to you by marriage, adoption or foster care.
- Your second (or multiple) spouse/s, according to African law, custom and certain religions.
- Financially dependent on you.

### By 'permanent total disability' we mean

A disability arising from an accident that entirely prevents you from being able to work, that's likely to last for the rest of your life, and that's supported by medical evidence.

### By 'temporary disability' we mean

A disability that, according to medical evidence, isn't likely to last for the rest of your life, whether arising accidentally or not. We don't cover temporary disability.

## What's covered by the king

You, and your spouse and family members, are covered for death and permanent total disability that's the result of an accident that happens anywhere in the world, provided that these family members:

- Are financially dependent on you.
- Normally live with you.
- Are between 14 and 70 years old.

\* **Please note: Death or disability must occur within 12 months of the accident. This 12-month period doesn't include any time in which death is delayed solely by the use, for longer than 3 days, of life-support machinery, equipment or apparatus.**

## Here's how it works

We'll pay out for multiple disabilities arising from the same accident, but the insured value stated on your policy schedule is the maximum amount we'll pay out for any accident. For different types of disabilities, we pay out a percentage of the applicable insured value, as shown on the next page.

## Our benefit table

# Code red

## In a nutshell...

Code red is an app-based service that'll get the closest armed response car or emergency service to you ASAP when you push the red button. It aims to provide you with peace of mind in situations whenever you feel threatened or unsafe, or when there's a medical emergency.

## For code red to work:

- You must install the King Price app onto your smartphone, and can do so by clicking [here](#). For Apple devices, the app requires iOS version 8.1 and above. For Android devices, the app requires Android 4.4 and above.
- On our app, you must read and accept the T's and C's, and then register for code red.
- Your phone must be GPS-enabled, and your phone's location must always be on.
- You must have data on your phone, and this is for your own account. Your service provider's standard data rates will apply.

## How it works

- If you feel threatened or unsafe, or if there's a medical emergency, open up our app and tap on 'Code red: Tap and hold'.
- The closest linked armed response company will automatically send a vehicle to your GPS location.
- The code red control room will call you to confirm the activation and request additional emergency services, like the police, if necessary.
- The control room and all responding vehicles will automatically receive your relevant identification and personal information.

## What's covered

- We can't guarantee response times, or access to and availability of responding vehicles and services.
- You agree that we can collect, store and analyse data arising from your use of code red. Location data from your cellphone will be gathered and securely transmitted to our data storage facility, where it'll be securely stored. This data will be used for lawful and valid reasons, primarily to provide code red services to you.
- Our code red partner is a company called Secura, a representative of a network of hundreds of armed response companies who are all registered with PSIRA (Private Security Industry Regulatory Authority). The Secura control room will contact you when you activate code red.
