

# It's up to you to manage your fire risks

**But give the actual risk to King Price for maximum peace of mind**

Let's be honest: In South Africa, it's always fire season somewhere. With this ever-present threat, it's important to be aware of your risks, your responsibilities, and the benefits of belonging to a fire protection association (FPA).

Joining your nearest FPA is the most important thing you can do to protect yourself from liability arising from a fire that spreads from your property. We have great relationships with the FPAs and we'll happily put you in touch if you don't know where to start.

You should also get in touch with us about your insurance. When it comes to liability, we'll cover you for R27,500,000, which automatically includes:

- Spread of fire, up to the sum insured.
- Fire extinguishing:
  - Water bombing, up to R500,000 per claim.
  - Spotter planes, up to R25,000 in a 12-month period.
- Animals at agri events, up to the sum insured.
- Basic hunting and game viewing, up to the sum insured.  
Extra cover for commercial hunting and game viewing can be included at an additional cost.
- Employer's liability, up to the sum insured.
- Products liability, up to R1,000,000. Extra cover can be included at an additional cost.
- And more!

And, you pay 1 premium for your farming and personal liability, across all your farms.
